Please be aware of potential audio problems when ordering #15 ultra-clear, #16 Bronze Age, #17 Slade Boot Silver and #18 Gold Digger. There is a risk that problems such as audible clicks will be present on final pressed vinyl (even if not present on test pressings). The reason for this is down to the compound material. Much of the time these issues can be disguised by the music but we cannot guarantee this until the records are actually pressed. It is a small risk but can happen and it is your risk to take.
